InterregGov:

ISO1 Spotlight

25 November 2026

Peer to Peer Events - 1

Webinar – ISO1 Spotlight
25 November 2026
On-line

Outlines

InterregGov is a European Commission initiative implemented by the City of Vienna that supports Interreg cross-border cooperation (CBC) programmes in strengthening cooperation governance under Interreg Specific Objective 1 (ISO1). Through tailored support, capacity building, peer learning and practical guidance, the project helps programmes to address cross-border obstacles and enhance people-to-people cooperation across European border regions.

InterregGov has been analysing how CBC programmes use ISO1 and has gathered valuable insights through desk research, data collection and exchanges with nine selected programmes for the tailored-made support. During the webinar, we will present the main findings, provide an overview of current practices, and highlight key trends and challenges identified across programmes.

Objectives

Give a comprehensive overview of usage of ISO1 by the CBC programmes and lay outline bases for future discussion of ISO1.

This webinar will present key findings on the use of ISO1 by CBC programmes, including an overview of cross-border obstacle solutions and people-to-people cooperation practices. Participants will gain insights into challenges, opportunities and approaches applied by other programmes, and the session will provide an outlook on upcoming InterregGov activities and next steps.

On-line	Wednesday, 25 November 2026
10:00 – 10:05	Welcome
10:05 – 10:10	**Introduction** *Goals of the meeting*
10:10 – 10:50	**Findings, conclusions** *Overview of the main findings and conclusions from the analysis of the programmes, including key trends, challenges, and opportunities.* *Q & A*
10:50 – 11:00	**What is to come? / What is expected next?** *Overview of upcoming InterregGov activities and the tailored support being piloted with nine programmes.*
